EDUCATION

- Bachelor of Technology (B.Tech.):** 7.97 CGPA, Rajasthan Technical University (2021-2025)
- CBSE (XII):** 74.8%, St Teresa's Sr. Sec. School (2020-2021)
- CBSE (X):** 69.8%, St Teresa's Sr. Sec. School (2018-2019)

TECHNICAL SKILLS

- Programming Languages:** Python, C++, Java, SQL
- Frameworks:** Django, Django REST Framework, Flask
- Tools:** Docker, Postman, GitHub, Pytest
- Concepts:** Data Structures & Algorithms, OOP, Containerization, API Development, Software Testing.

PROFESSIONAL EXPERIENCE

- Python Developer Intern, Codenscious.ai** (Sep 2024- Present)
 - Designed and deployed scalable web applications using Django Framework and Django REST Framework.
 - Streamlined API response times by 20% through optimization of Django REST services.
 - Developed a Flask-based webhook server to automate GitHub pull request testing workflows, reducing manual efforts by 40%.
 - Enhanced system performance with multi-threaded task queues for concurrent event processing.
 - Achieved 95% code coverage by implementing automated tests using Pytest, Django Test Framework, and Coverage tools.
 - Published detailed test and coverage reports to GitHub Pages, improving development feedback cycles.
 - Managed deployment pipelines with Docker and Docker Compose for seamless containerization and scalability.
 - Utilized GitHub APIs to integrate real-time feedback into pull requests, increasing developer productivity.
 - Debugged and resolved critical software defects, enhancing overall system stability and user experience.

PROJECTS

- Automated Test Report GitHub Pull Requests (Flask)** [Link](#) (Nov 2024)
 - Developed a Flask-based webhook server to automate testing and reporting workflows for GitHub pull requests.
 - Improved workflow efficiency by reducing manual efforts by 40% through automation.
 - Designed a multi-threaded task queue to handle concurrent pull request events seamlessly.
 - Utilized Pytest and Coverage to achieve 95% code coverage and generate detailed HTML-based reports.
 - Automated the publishing of test reports to GitHub Pages for easy developer access.
 - Deployed the system using Docker, ensuring scalable and isolated environments for testing.
 - Leveraged GitHub APIs to provide real-time feedback on pull request quality, enhancing code review processes.
- Marketplace Website (Django)** [Link](#) (Sep 2024)
 - Built a full-featured marketplace website enabling user registration, login, and account management.
 - Integrated item addition, browsing, and dealer-client communication via a custom inbox system.
 - Enhanced user experience using Django Templates for a responsive and dynamic interface.
 - Applied Django Forms and Authentication for secure and efficient user management.

POSITIONS OF RESPONSIBILITY

- Python developer Intern:** Codenscious.ai (Sep 2024- Present)
- Flutter developer Intern:** Delphic (June 2023- Dec 2023)
- Team Lead:** Locate-It (Oct 2022-Dec 2022)
- Leader:** Shankara Global Hackathon (Aug 2020)
- Organizer:** Intra-College Hackathon (Dec 2022)

My CERTIFICATIONS

- Programming Fundamentals:** Duke University (Coursera)
- 15 Days Offline Python Training**
- Winner** in ML domain in Hackathon organized by GDSC
